[LinkedIn - <https://www.linkedin.com/in/archisman-chakraborty-056b33232/>]

Profile:

Enthusiastic **Computer Engineering** graduate with a strong foundation in **Software development** and **hands-on experience** in **Python** and **Java**. Committed to continuous learning and passionate about emerging technologies and problem solving. Seeking an entry-level role to contribute effectively and gain hands-on industry experience.

Technical Skills:

Programming: C, Python, JavaScript, PHP, Laravel, Data Structure, AI/ML

Web Development: HTML, CSS, React, jQuery, MERN Stack

Databases: MySQL, PostgreSQL, MongoDB

Cloud & Security: IBM CLOUD, AWS

Work Experience:

1. IEMA RESEARCH & DEVELOPMENT PVT. LTD.

(July 2026 – Present)

Responsibility

- Contributing to **production-grade software solutions** across the **full development lifecycle**, leveraging **React.js, Node.js, Express.js, MongoDB, Python, and Java**.
- Architecting and integrating **secure, scalable APIs and application workflows**, including **authentication, OTP verification, Google OAuth 2.0, and role-based access control**.
- Delivering reliable, deployment-ready features** through **systematic testing, debugging, API optimization, containerization, and version-controlled development** using **Git, Docker, and Postman** and modern development practices.

2. DCG Data-Core Systems India Pvt Ltd

(Jan 2026 – July 2026)

Responsibility

- Working on **real-world software development tasks**
- Assisting in **development, debugging, and testing**
- Collaborating with **team members** on project modules

3. AI-Based Intelligent System Internship – Infosys Springboard

(Dec 2025 – Feb 2026)

Responsibility

- Developed **AI-based skin disease detection system** with **healthcare recommendations**.
- Applied **ML concepts** in real-world healthcare use case.

4. AI & Cloud Internship – IBM

(July 2025 – August 2025)

Responsibility

- Worked on **AI and Cloud-based solutions** using IBM Cloud platform.
- Gained **hands-on experience** in emerging technologies.

Projects:

1. AI Fault Diagnosis Agent:

- Made a tool that **finds and explains system faults** using **local and cloud models**.
- Built a React and TypeScript interface** with **text, voice, image inputs** and **saved past results**.

2. Automated Grade Card Machine:

- Developed an automated system** to **generate and manage student grade cards**.
- Optimized database queries** for **quick result processing**.

Certifications:

- ✦ **Python for Automation (Google):** Demonstrated proficiency in Python scripting, automation, API integration, and workflow optimization to enhance efficiency in real-world applications.
- ✦ **Exploratory Data Analysis for Machine Learning (IBM):** Demonstrated proficiency in Python scripting, automation, API integration, and workflow optimization to enhance efficiency in real-world applications
- ✦ **Introduction to Internet of Things (NPTEL – IIT Kharagpur):** Gained practical knowledge of architecture, data flow from devices to cloud platforms, and how connected systems are designed and managed

Education:

- B.Tech in Computer Science and Engineering** CGPA: 8.3 | Aug 2022 - July 2026 (University of Engineering and Management, Kolkata)
- HS (Science)** 77.40% | July 2020 - June 2022
- Madhyamik** 75.57% | April 2020
